## Summary

Driven and meticulous **Software Development Engineer (SDE)** with a solid background in utilizing contemporary technologies to create scalable web apps. Adept at providing dependable, effective solutions. Enthusiastic about creating software and using **clear, maintainable code to solve practical issues**. Eager to contribute to creative initiatives with significant effects and quick to adjust to new technologies. Aiming to work with a reputed organization in order to develop best-in-class solutions and advance as a technologist by ongoing education and practical experience with top business executives.

## Technical Skills

**Frontend Frameworks:** ReactJS, NextJS, HTML, CSS, Tailwind

**Backend Frameworks:** Node.js, Spring and SpringBoot, Express.js

**Programming Languages:** Java, JavaScript, Python, C/C++

**Database Management:** MySQL, MongoDB, PostgreSQL

**Tools:** GitHub, Git version control, pgAdmin, Looker Studio, IntelliJ Idea, Vscode, AWS

## Projects

**Personal Portfolio Website** - [Github link](#)

[adarsh-portfolio-website.app](https://adarsh-portfolio-website.vercel.app)

- Developed using Next.js, TypeScript, Aceternity UI, FramerMotion, and TailwindCSS to showcase my projects.

**Stock Screener Website** - [Github link](#)

- A Stock Screening website with stock fundamental API and latest news API integration using Java SpringBoot framework and Thymeleaf.

**Secure Carbon Footprint Tracking using Blockchain** - [Github link](#)

- Developed the front-end of a decentralized web platform for transparent and tamper-proof carbon emission tracking as part of an academic project, using React and Tailwind CSS for a responsive and modern UI.

**Blog Website - Adarsh Writes Blog** - [Github link](#)

[adarshwritesblog.app](https://adarshwritesblog.vercel.app)

- Developed a responsive personal blog with ReactJS, CSS, JavaScript, MySQL, and ExpressJS for seamless content management and deployment, hosted on Netlify.

**Video Chat Application** - [Github Link](#)

- Built a one-to-one real-time video chat application with messaging using WebRTC, Node.js, and Socket.io.

## Volunteering

**IEEE-CRCE Technical Council**
